

DYNABOOK JOINS IGEL READY PROGRAMME AS A TECHNOLOGY PARTNER FOR ENDPOINT DEVICES

- **The Satellite Pro C40-H and L50-G are the first IGEL Ready-verified dynabook devices**
- **Devices are validated and ready to deploy IGEL's next-gen edge OS for next-level security and remote working**
- **More devices are to be added to the programme in the coming months**

10th February 2021, Neuss, Germany – Dynabook Europe GmbH and IGEL today announce that dynabook has joined the IGEL Ready Programme as a Technology Partner for endpoint devices. The partnership means that IGEL's next-gen edge OS will be validated for a number of dynabook devices, ensuring they benefit from the next-level security provided by IGEL.

The Satellite Pro C40-H and Satellite Pro L50-G are the first [IGEL Ready-verified dynabook devices](#). With IGEL's quick and easy install out of the box OS, end-users can be up and running straight away with the IGEL OS on their devices. These products are also among the very first mobile endpoint devices globally to be verified as IGEL Ready, granting dynabook customers the ability to deliver more cost-effective, efficient and secure remote working to their employees.

End user organisations deploying dynabook's IGEL Ready devices will benefit from the full IGEL ecosystem of over 100 IGEL Ready partners, whose technologies are fully compatible and ready to use and integrate with dynabook's devices through IGEL OS. The program creates an ecosystem where customers can consider compatible devices, tools and applications across a range of categories, quickly deploy them to their virtual desktop or cloud workspace, and then securely access them from any dynabook device equipped with IGEL software.

Dynabook customers using IGEL Ready devices will also be able to deploy with full confidence, knowing that IGEL OS will work smoothly on the device and ensure a high end user experience.

"Becoming an IGEL Technology Partner enables our customers to benefit from the simple, secure, and cost-effective deployment of virtual workspaces, something which is increasingly important in this era of remote working, and especially so within those sectors requiring the most robust of endpoint security," said **Damian Jaume, President, Dynabook Europe**. "We're proud that the Satellite Pro C40-H and L50-G are two of only a handful of mobile endpoint devices verified as IGEL Ready so far, and very much look forward to bringing even more dynabook devices to the programme in the coming months."

"We are delighted to welcome Dynabook Europe into the IGEL Ready Programme, formalising further a longstanding relationship between the two companies," said **Divya Saggarr, Senior Manager, IGEL Alliances at IGEL**. "With the future of enterprise computing being in the cloud, the IGEL Ready Programme allows dynabook customers to benefit from the enhanced security of our edge OS, while at the same time gaining reliable and frictionless access to a wide range of tools, applications, and services critical to enabling businesses continuity and growth."

About IGEL

IGEL provides the next-gen edge OS for cloud workspaces. The company's world-leading software products include IGEL OS™, IGEL UD Pocket™ (UDP) and IGEL Universal Management Suite™ (UMS). These solutions comprise a more secure, manageable and cost-effective endpoint management and control platform across nearly any x86-64 device. Easily acquired via just two feature-rich software offerings, — Workspace Edition and Enterprise Management Pack — IGEL software presents outstanding value per investment. Additionally, IGEL's German engineered endpoint solutions deliver the industry's best hardware warranty (5 years), software maintenance (3 years after end of life) and management functionality. IGEL enables enterprises to save vast amounts of money by extending the useful life of their existing endpoint devices while precisely controlling all devices running IGEL OS from a single dashboard interface. IGEL has offices worldwide and is represented by partners in over 50 countries. For more information on IGEL, visit www.igel.com.
